This is really so awesome to note that these word problems will enhance creative thinking skills in kids and of course enable them to be more logical towards life. In addition, math printable worksheets for grade 1 consists of bits of every math concepts that will arouse awareness in kids as they move to higher classes. Reinforce math proficiency - free printable 1st grade math worksheets Having had afore knowledge of basic math concepts, kids can best reinforce math proficiency by getting hold of our free printable 1st grade math worksheets. As it is the easiest way to facilitate math practice, these worksheets will help kids to have a regular practice of number sense, related addition and subtraction sentences algebraic thinking, geometrical figures and objects, measurement of length, Venn diagrams, weight, capacity, time, temperature, data analysis and probability. This regular practice of math concepts will bring about flexibility, proficiency, confidence and accuracy in math. You are here: Home – Worksheets – Grade 1 This is a comprehensivedfsdfs collection of free printable math worksheets for grade 1, organized by topics such as addition, subtraction, place value, telling time, and counting money. They are randomly generated, printable from your browser, and include the answer key. The worksheets support any first grade math program, but go especially well with IXL's 1st grade math curriculum. The worksheets are randomly generated each time you click on the links below. You can also get a new, different one just by refreshing the page in your browser (press F5). You can print them directly from your browser window, but first check how it looks like in the "Print Preview". If the worksheet does not fit the page, adjust the margins, header, and footer in the Page Setup settings of your browser. Another option is to adjust the "scale" to 95% or 90% in the Print Preview. Some browsers and printers have "Print to fit" option, which will automatically scale the worksheet to fit the printable area. All worksheets come with an answer key placed on the 2nd page of the file. Mental Addition Students should be provided a 100-head abacus or base ten blocks for these two-digit addition problems. The problems can even involve a regrouping, or making a new ten, but students are not solving the problems by writing the numbers under each other (adding in columns). The idea is just to use the manipulative to add. Add two 2-digit numbers using a manipulative Adding in Columns Pennies and dimes only - up to 6 coins Pennies, nickels, and dimes only - up to 6 coins Pennies, nickels, and dimes only - up to 10 coins Pennies, nickels, and dimes only - up to 15 coins Dimes and quarters only - up to 6 coins Nickels and quarters only - up to 6 coins Pennies, nickels, dimes, and quarters - easy Pennies, nickels, dimes, and quarters - medium Pennies, nickels, dimes, and quarters - challenge Use these pages to make worksheets for other currencies: If you wish to have more control on the options such as number of problems or font size or spacing of problems, or range of numbers, just click on these links to use the worksheet generators yourself. Welcome to Math Salamanders First Grade Math Worksheets hub page. In our First Grade area, you will find a wide range of printable math worksheets and Math activities for your child to enjoy. Come and take a look at our dot-to-dot pages, or our 1st grade flashcards. Perhaps you would prefer our 2d shape worksheets, or learning about numbers using our number line worksheets? Hopefully you will find something here to meet your child's math requirements! This page contains links to other Math webpages where you will find a range of activities and resources. If you can't find what you are looking for, try searching the site using the Google search box at the top of each page. Here are the standards for the end of the year for First Grade. Count, read and write numbers up to 120. Know place value up to 100. Compare two 2-digit numbers using symbols $>$, $<$ and $=$. Use place value to find 10 more or 10 less than Add and subtract within 20 Fluently add and subtract within 10 Solve problems involving addition and subtraction within 20 Add three single digit numbers up to 20. Understand subtraction as an unknown addend problem. e.g. $10 - 8$ is the same as "What do I need to add to 8 to make 10?" Solve missing number equations: $5 + \quad = 7$ Use and understand the $=$ sign. e.g. $5+2=7$ is the same as saying $7=5+2$ Add a 2-digit number and a 1-digit number Add a 2-digit number and a multiple of 10 using models Subtract tens from a multiple of 10 up to 90 using models. Partition circles and rectangles into two or four equal shares. Use the terms: halves, fourths and quarters to describe the equal parts. Read scales going up in whole numbers Order and compare objects by length, height or weight Tell and write the times: o'clock and half-past Organize, represent and interpret data going up in up to 3 categories. Solve simple problems involving data. Shape list: 2D shapes - squares, rectangles, trapezoids, triangles, half-circles, quarter-circles Shape list: 3D shapes - cubes, cones, cylinders, spheres Compose different 2D and 3D shapes from a range of 2D and 3D shapes. Identify and describe 2D and 3D shapes by some of their properties. Sort 2D and 3D shapes using simple criteria. On this page you will find link to our range of math worksheets for 1st grade. Here you will find a range of Free Printable First Grade Place Value Charts. These printable charts will help your child learn to read and write numbers to 100. There is a selection of charts with numbers up to 99, and another section of charts going up to 100. Some of the charts are partially filled to help your child learn their place value to 100. Using these sheets will help your child to: learn to count in tens and ones; learn to read and write numbers to 100. All the charts support elementary math benchmarks. 1st Grade Place Value Charts Here you will find a range of 1st Grade Place Value Worksheets. These first grade math worksheets will help your child learn their place value, reading, writing and ordering numbers up to 100. There are also some money worksheets involving counting in dimes and pennies to support place value learning. Using these sheets will help your child to: learn to count in tens and ones; learn to order numbers to 100; learn to count in dimes and pennies; learn to read and write numbers to 100. 1st Grade Place Value Worksheets Here is our selection of free printable number line worksheets for 1st grade. These first grade math worksheets will give your child a good grasp of place value and number sequences up to 100. Using these sheets will help your child to: count on and back by ones; position numbers to 100 on a number line. Here you will find a range of printable first grade mental math sheets for your child to enjoy. Each quiz tests the children on a range of math topics from number facts and mental arithmetic to geometry, solving word problems and measures questions. A great way to revise topics, or use as a weekly math quiz! Top of Page Here you will find a range of Free Printable Addition Worksheets to support grade 1. The following first grade math worksheets involve adding different amounts. Using these sheets will help your child to: learn their addition facts to 12+12; learn to solve an addition fact where one of the addends is missing; learn to add numbers in columns up to 100. Here you will find a range of Free Printable First Grade Subtraction Worksheets. The following worksheets involve using the First Grade Math skills of subtracting. Using these first grade math worksheets will help your child to: learn their addition and subtraction facts to 12; learn to subtract 2 digit numbers. If you need to mix and match addition and subtraction fact questions within the same sheet, then use this section here. The addition and subtraction worksheets involve counting on and back with numbers to 12. Top of Page Here you will find a range of math word problems aimed at first grade level. Each problem sheet is based on an interesting theme such as parties or the seaside. Using these first grade math worksheets will help your child to: Add and subtract with numbers to 12; order numbers to 100; solve a range of math problems. All the math problem sheets in this section support Elementary math benchmarks. Top of Page Here is a range of free geometry worksheets for 1st graders. The following worksheets will help your child to: Identify and name a range of 2d and 3d shapes; Draw 2d shapes; Know some of the properties of 2d shapes. First Grade Geometry Worksheets Here you will find our range of Free 1st Grade 2D & 3D Shape Sheets. The following printables contain pictures of common 2D shapes that your child should know. Each sheet is available in both a color version and a black and white version (if you wish to save on printer ink, or use as a coloring sheet). Using these first grade math worksheets will help your child to: know the properties of different 2d and 3d shapes; recognise different types of triangle - equilateral and isosceles; recognise trapezoids and parallelograms; recognise members of the quadrilateral family; recognise a range of 3d shapes including spheres, cones, cylinders, prisms, pyramids, cubes and cuboids. recognise shapes in different orientations and sizes. Top of Page Here is our selection of measurement worksheets for 1st grade. These sheets involve reading scales going up in ones to find the weight or liquid capacity. Using these sheets will help children to consolidate their counting as well as learning to read a simple scale. First Grade Measurement Worksheets Here you will find a range of free printable First Grade Money Worksheets. The following worksheets involve counting different amounts of money in pennies, nickels and dimes. Using these first grade math worksheets will help your child to: learn the names and values of the US coins; learn to count up different amounts of money to \$1 in coins. UK Money Worksheets Money Worksheets UK Coins Hub Page Canadian Money Worksheets 1st Grade Canadian Money Worksheets Printable Money Flashcards Kids Counting Money Dominoes Here is our selection of telling the time worksheets for 1st grade. Using these sheets will help your child to: read o'clock and half-past times; convert o'clock and half-past times to digital; draw clock hands correctly to mark out o'clock and half-past. The first grade math worksheets in this section will help your child learn to tell simple times on an analogue clock. Telling Time Worksheets 1st Grade Top of Page Here is our selection of bar graphs for first graders. These sheets involve reading and interpreting a range of bar graphs and picture graphs with a scale going up in ones. Using these sheets will help children to understand how bar graphs work. Here is our selection of tally chart worksheets for 1st and 2nd graders. These sheets involve counting and recording tallies. Top of Page Fun Zone: Puzzles, Games and Riddles Here you will find a range of free printable First Grade Math games. All children like to play Math games, and you will find a good range of 1st Grade Math Games here for your child to play and enjoy. The following games involve different First Grade Math activities which you and your child can enjoy together. All the free Math sheets in this section are informed by the Elementary Math Benchmarks for First Grade. Here you will find a range of printable first grade math puzzles for your child to enjoy. The puzzles will help your child practice and apply their addition and subtraction facts as well as developing their thinking and reasoning skills in a fun and engaging way. Using these puzzles will help your child to: learn their addition facts to 12+12; develop thinking and reasoning skills; develop perseverance. Our First Grade Math Games Ebook contains all of our fun maths games, complete with instructions and resources. This booklet is available in our store - use the link below to find out more! Top of Page We have started creating sets of seasonal worksheets for each grade. These sheets are great for linking to a particular topic, or doing some math that relates to the time of year. For those of you who have found yourselves unexpectedly at home with the kids and need some emergency activities, we have developed some Math Grab Packs. Each grab pack is a collection of 10 worksheets covering a range of math topics (plus a game in some of the packs). They are completely FREE - take a look! First Grade Math Grab Packs Is your child stuck with a particular area or concept and you are looking for help? Do you want to support your child with their math work and not know where to start? Looking for some supportive advice and help? Come to our friendly 1st grade math help page! How to Print or Save these sheets Need help with printing or saving? Follow these 3 easy steps to get your worksheets printed out perfectly! How to Print or Save these sheets Need help with printing or saving? Follow these 3 easy steps to get your worksheets printed out perfectly! The Math Salamanders hope you enjoy using these free printable Math worksheets and all our other Math games and resources. We welcome any comments about our site or worksheets on the Facebook comments box at the bottom of every page. Page 2 Welcome to our 2 Digit Multiplication Worksheets page. We have plenty of worksheets on this page to help you practice the skills of multiplying 2-digit numbers by 1 or 2 digits. We have split the worksheets on this page into two sections: 2-digit x 1-digit multiplication (3rd grade) 2-digit x 2-digit multiplication (4th grade) Each section ends with some trickier challenge sheets for more able students. Within each section, the sheets are carefully graded with the easiest sheets first. These sheets are aimed at 3rd graders. Sheets 1 to 4 consists of 15 problems; sheets 5 and 6 consist of 20 problems. Sheets 1 and 2 involve multiplying 2-digit numbers by 2, 3, 4 or 5. Sheets 3 to 6 involve multiplying a 2-digit number by single digit numbers and finding increasing trickier products. These 2-digit multiplication worksheets have been designed for more able students who need that extra challenge! These sheets are aimed at 4th graders. Sheet 1 involves 2-digit by 2-digit multiplication with smaller numbers and answers up to 1000. Sheets 2 to 4 have harder 2-digit numbers to multiply and answers that are generally larger than 1000. These 2-digit multiplication worksheets have been designed for more able students who need that extra challenge! We have more 2-digit multiplication worksheets, including 2-digit x 3-digit multiplication problems on this page. More Double digit Multiplication Worksheets (harder) Take a look at some more of our worksheets similar to these. Need to create your own long or short multiplication worksheets quickly and easily? Our Multiplication worksheet generator will allow you to create your own custom worksheets to print out, complete with answers. Here you will find a range of Multiplication Worksheets to help you become more fluent and accurate with your tables. Using these sheets will help your child to: learn their multiplication tables up to 10 x 10; understand and use different models of multiplication; solve a range of Multiplication problems. All the free 3rd Grade Math Worksheets in this section are informed by the Elementary Math Benchmarks for 3rd Grade. Here you will find a range of Free Printable Multiplication Games to help kids learn their multiplication facts. Using these games will help your child to learn their multiplication facts to 5x5 or 10x10, and also to develop their memory and strategic thinking skills.
